## Terms & Conditions

The following terms will apply to all customer orders placed with World of Sport.

### Pricing

Prices listed in the catalogue are in Australian dollars. Prices are correct at time of publication but are subject to change at the discretion of World of Sport. Up to date prices are available at [www.wos.com.au](http://www.wos.com.au) where an online ordering system is available.

### Products

World of Sport advises that product specifications and colours may change from that listed in this catalogue, due to ongoing product development. At times we may substitute an alternate product to that ordered. This will occur where the product has been discontinued or is expected to be unavailable for a long period. In the case of a substitution the product will be, in our opinion, of an equal or superior grade.

### Freight

Freight will be charged on all shipments to cover cost of door to door delivery of your goods. Freight charge will be in line with that charged by our logistics partners. World of Sport will utilise your nominated carriers where specified. Freight estimates (except for international orders) are available by utilising our quotation facility at [www.wos.com.au](http://www.wos.com.au). Any freight quote obtained by using this system will be honoured.

Unfortunately, back orders will occur during the course of business. We deliver back ordered goods (with the exception of bulky items) free of charge.

International orders are subject to a special freight quotation, World of Sport will contact you with this quotation prior to dispatch of your order. World of Sport reserves the right to select the delivery method of all orders unless instructed otherwise at time of order placement.

### Claims and Damaged Goods

Claims need to be advised to World of Sport within five working days of receipt of goods. Please contact World of Sport to advise nature of claim, if we agree to return of goods, a Return Authorisation Number will be issued. This number must be quoted on all parcels and paperwork in relation to claim. Please note that goods that have been marked or used will not be accepted for return.

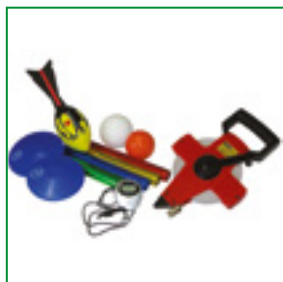

Should you receive a damaged consignment, please note the damage on the consignment note presented by the courier, then advise World of Sport immediately.

Should you receive a consignment with a shortage please note the shortage and contact World of Sport to resolve the matter. All consignments dispatched from World of Sport are checked by two staff members and as such, shortages will be unusual. Please ensure that consignments are checked carefully prior to release of any items.

# BOW

## NET

**EAS - ENERGY ABSORPTION SYSTEM**. Bownet has revolutionized the sports netting business with its energy absorption system. Bownet soccer goals release the energy of the shot - not one, not two, but three times. Saving the life of the net while making the goal stable and durable. Even for the pro's, try and knock it over - you can't!

<b>600gm Nordic Valhalla Medium NXB Javelin</b>	D	084082613	1003.41	1103.75
The new Valhalla Javelins are aerodynamically designed from scratch for maximum glide. The Medium Hybrid Javelins are made of mixed composite material and are specifically made for less technical, but more powerful throwers, who are in need of a more forgiving Javelin option. Our Medium Hybrid Javelins are therefore more forgiving than the Hard Carbon Javelins and therefore allow the thrower to make minor technical errors. The javelin will self correct immediately after the release for imperfect throws. We have also designed new tips for our Valhalla Javelin range. The NXB - Next Generation Blunt tip is made for maximum lift in predominantly tailwind and still conditions. The NXB tip is therefore thicker and possesses more of a blunt tip. This helps to create maximum lift and longer glide. <b>IAAF</b> certified No. I-18-0910.

# Glenthams T-Piece High Jump Pits

All T-piece high jump pits are three base units with wear pad design. Blue and red materials are used through all models. These fabrics are standard throughout the Glenthams range and are the same fabrics used in manufacture of IAAF certified high jump landing pits.

All mats in the T-piece range have welded seams rather than stitched seams; not only does this provide some protection against moisture but there is no thread to deteriorate.

Foam is made up of three layers of foam with varying density and hardness specifications. The base layer is the highest hardness – to prevent bottoming out by athlete. The middle layer is moderate hardness and constructed as air cell with channels through the pit from front to back – this adds give to the pit for athlete safety and comfort. The top layer is the lowest hardness – to provide as soft a landing as is possible with relation to overall safety of athlete.

Please see page 22 for options on Glenthams high jump pits.

## GHJ 350 \$6274.20 \$6901.55

Three base unit high jump landing pit with three stage foam construction. Each base unit measures 3000mm (D) x 1670mm (W) x 360mm (H). Wear pad with spike resistant mesh increases overall height of mat to 400mm. All seams on units are welded (not stitched) to provide protection from moisture. Clip and ring system ensures stability of pit shape. Both end units have recessed corners to accommodate stands.

## GHJ 400 \$6941.34 \$7635.40

Three base unit high jump landing pit with three stage foam construction. Each base unit measures 3000mm (D) x 1670mm (W) x 460mm (H). Wear pad with spike resistant mesh increases overall height of mat to 500mm. All seams on units are welded (not stitched) to provide protection from moisture. Clip and ring system ensures stability of pit shape. Both end units have recessed corners to accommodate stands.

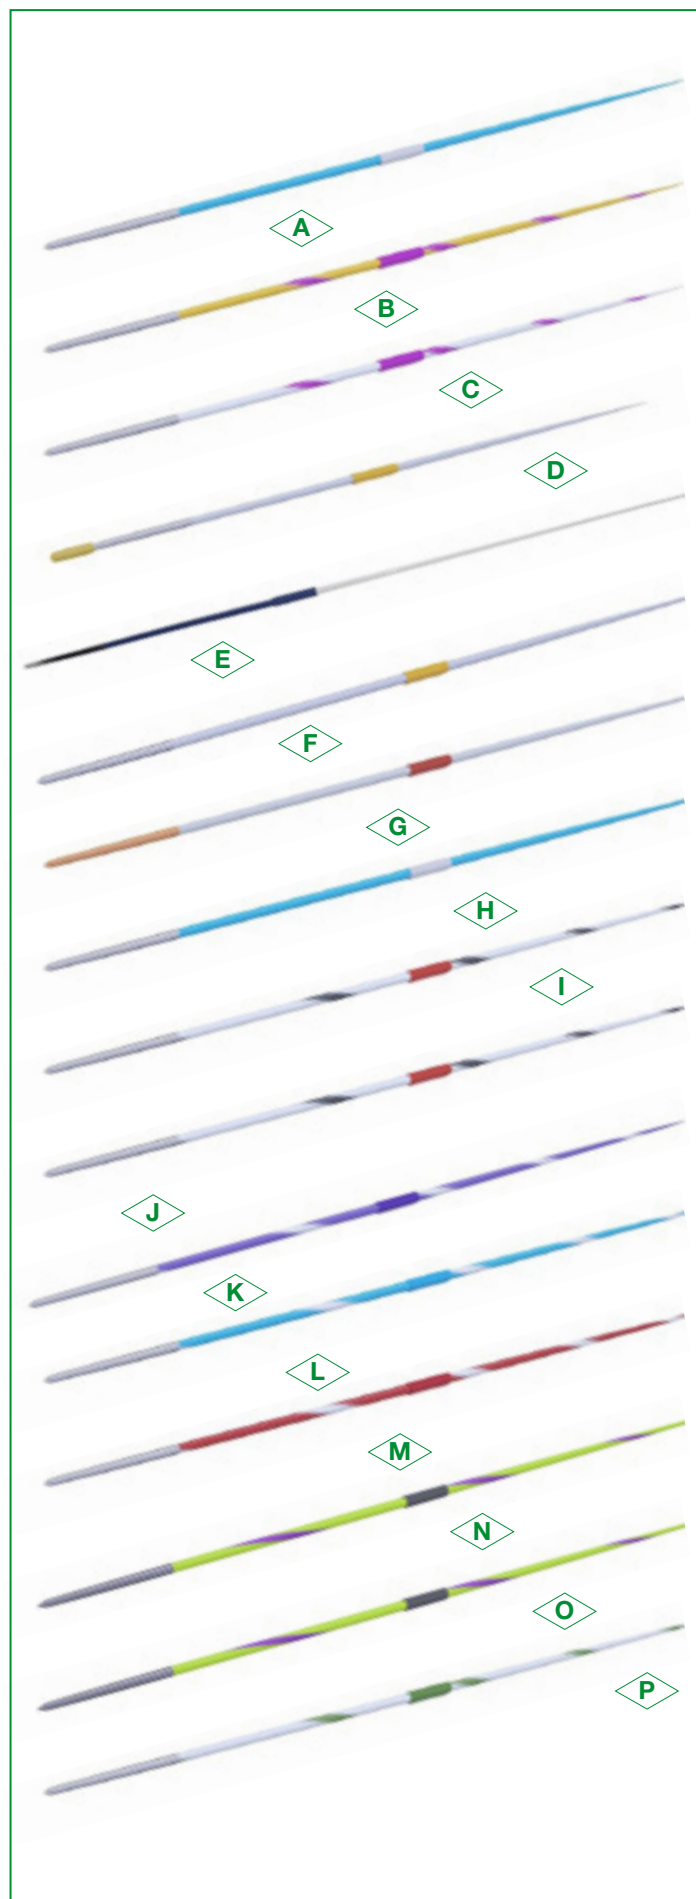

## GHJ 450 \$7295.71 \$8025.20

Three base unit high jump landing pit with three stage foam construction. Each base unit measures 3000mm (D) x 1670mm (W) x 560mm (H). Wear pad with spike resistant mesh increases overall height of mat to 600mm. All seams on units are welded (not stitched) to provide protection from moisture. Clip and ring system ensures stability of pit shape. Both end units have recessed corners to accommodate stands.

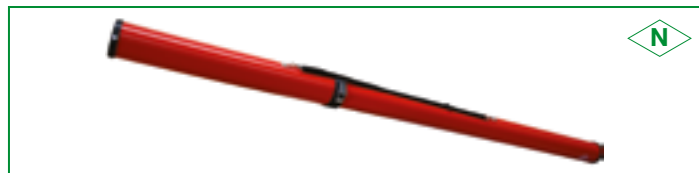

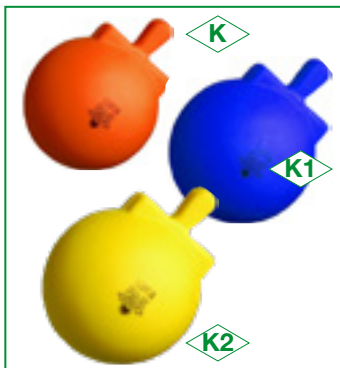

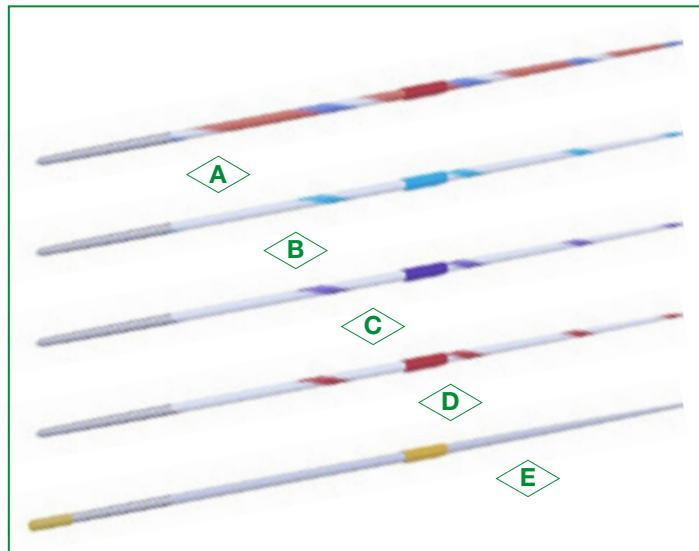

## GHJ 500 \$8077.58 \$8885.25

Three base unit high jump landing pit with three stage foam construction. Each base unit measures 3000mm (D) x 1750mm (W) x 660mm (H). Wear pad with spike resistant mesh increases overall height of mat to 700mm. All seams on units are welded (not stitched) to provide protection from moisture. Clip and ring system ensures stability of pit shape. Both end units have recessed corners to accommodate stands.

<b>800gm Nordic Valhalla Medium NXB Javelin</b>	N	08408396	1067.73	1174.50
The new Valhalla Javelins are aerodynamically designed from scratch for maximum glide. The Medium Hybrid Javelins are made of mixed composite material and are specifically made for less technical, but more powerful throwers, who are in need of a more forgiving Javelin option. Our Medium Hybrid Javelins are therefore more forgiving than the Hard Carbon Javelins and therefore allow the thrower to make minor technical errors. The javelin will self correct immediately after the release for imperfect throws. We have also designed new tips for our Valhalla Javelin range. The NXB - Next Generation Blunt tip is made for maximum lift in predominantly tailwind and still conditions. The NXB tip is therefore thicker and possesses more of a blunt tip. This helps to create maximum lift and longer glide. IAAF certified No. I-18-0915.				
<b>800gm Nordic Valhalla Medium NXS Javelin</b>	O	08408397	1067.73	1174.50

<b>800gm Nordic Valhalla Hard NXB Javelin</b>	P	08408394	1106.32	1216.95
The new Valhalla Javelins are aerodynamically designed from scratch for maximum glide. The Hard Carbon Javelins are made of 100% Carbon and are specifically made for very technical throwers. The Hard Carbon Javelin is very sensitive to technical errors/ flaws but when hit right it will self correct and go further than any other javelin based on our calculations and knowledge. We have also designed new tips for our Valhalla Javelin range. The NXB - Next Generation Blunt tip is made for maximum lift in predominantly tailwind and still conditions. The NXB tip is therefore thicker and possesses more of a blunt presentation than any other javelin tip on the market. This helps to create maximum lift and therefore longer glide during perfect wind conditions for this tip. IAAF certified No. I-18-0913.

**Seiko PS-110 Electronic Starting System** X 088605 3973.32 4370.65

PS-110 is an electronic audio-visual start signal generator that can be used for various types of sports events. It generates a start signal with both sound and flashlight. It does not use gunpowder, and is safe for handling and storage. Problems involved in the use of a gunpowder pistol such as misfire and powder smoke have been eliminated. A synthesized firing signal or an electronic beep can be generated, as required. The Headset Microphone can be used to amplify and communicate the starters voice to the athletes. PS-110 can be used alone, with other units of PS-110, or in combination with other devices, to suit your needs.

## Books and DVD

**Coaching Cross Country Successfully** V 687732CC 29.23 32.15

Newton shares the secrets to his unmatched success. With this complete guide, you'll get a firsthand account of how to teach, train, and motivate like the master. You'll learn not only how Newton built his running dynasty but also how you can apply his principles of discipline, dedication, and teamwork to create your own winning cross country program. Combining straightforward instruction with dozens of personal anecdotes, Newton shows you how to: recruit athletes within your school, teach the basics of distance-running technique, develop winning race strategies, prepare for meets, and evaluate runners and your running program.

**Coaching Track & Field Successfully** W 687732TF 40.23 44.25

Season planning. Event coaching. Meet preparation. Postmeet analysis. Athlete coach communication. This book covers all the issues a coach must effectively address in building and maintaining a championship program. How do you motivate players? What's your philosophy of coaching? How can you communicate your vision to athletes, parents, and critical members of the coaching team? With Coaching Track & Field Successfully, you'll learn all of that and much more from someone who's been through it all.

**Athletic Development** X 687736 40.23 44.25

Athletic Development explains what works, what doesn't, and why. Gambetta's no-nonsense approach emphasizes results that pay off in the competitive season and reflect his work at the highest echelons of sport. Merging principles of anatomy, biomechanics, and exercise physiology with sports conditioning applications and four decades of professional practice, this is the definitive guide to performance-enhancing training.

**Track & Field Coaching Essentials** Y 687737 40.23 44.25

Track & Field Coaching Essentials provides the information and direction to make your first, or twenty-first, season a success. Starting with the fundamentals, moving on to the sport sciences, and then detailing each of the events, this is the most comprehensive and authoritative coaching resource in the sport.

**The Complete Book of Throws** Z 6877371 40.18 44.20

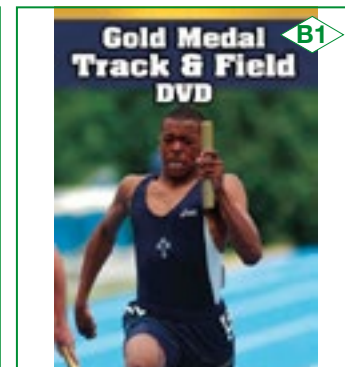

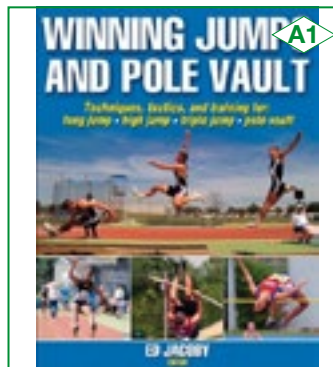

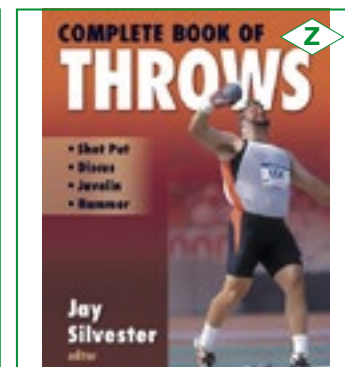

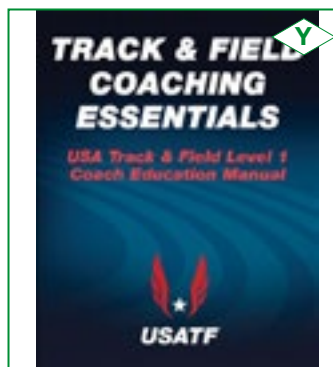

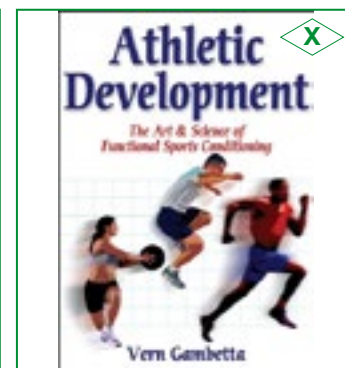

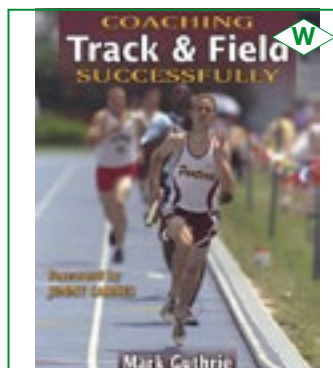

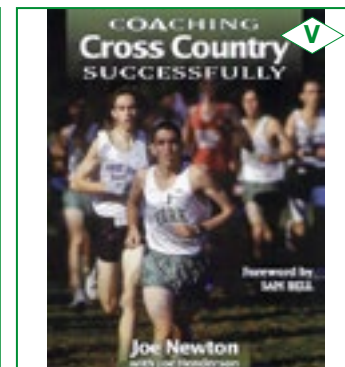

From the basic biomechanics of throwing to in-depth information on the discus, javelin, hammer, and shot put, Complete Book of Throws brings it all together to improve your techniques and your distance! Complete Book of Throws takes the techniques and conditioning programs of the most accomplished coaches in each event and presents them in a way that athletes can understand and coaches can adapt to create a winning program. Whether you're just starting out in the event or preparing your team for competition at the highest level, you'll find the conditioning and training specifics you need to strength your body, improve your form, and push your performance to the edge.

**Winning Jumps and Pole Vault** A1 6877372 32.91 36.20

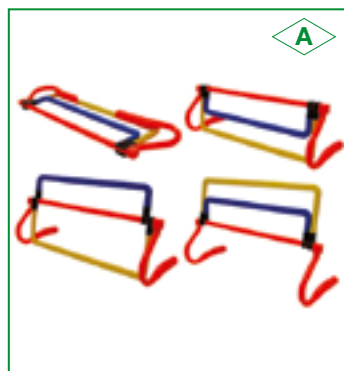

Long jump, triple jump, high jump, and pole vault. From techniques and training to strategy and mental preparation, Winning Jumps and Pole Vault is the only book that covers it all. Renowned coach Ed Jacoby and the all-star line-up of Cliff Rovelto, Tom and Kyle Tellez, Irving Boo Schexnayder, Greg Hull, Will Freeman, and Keith Henschen share the secrets and strategies that have produced 62 NCAA champions, 15 Olympic gold medalists, and numerous other U.S. and world medalists and champions. Every phase of every event from approach to takeoff to landing is described to convey proper technique. Learn how to recognize and correct common technical flaws and rely on over 25 event-specific drills to perfect technique.

**Gold Medal Track & Field DVD** B1 689692 85.91 94.50

Improve your technique instruction and add to your training drills for better performance. This DVD shows you how! Expert track and field coaches cover each event category with teaching points and training tips you'll use immediately in practices and for many seasons to come. Events include: Sprints, hurdles, relays, middle & long distance running, jumping and throwing events.

### Lawn Bowls

**Henselite Dreamline XG Lawn Bowls Set** E 211780 536.00 589.60

The Dreamline XG is a superb all-round bowl. The key to its success is its density which creates maximum stability without compromising its comfort in the hand. This enhanced stability and its predictable line make it so versatile, it's at home on all surfaces from North to South and East to West, even in the windiest of conditions. The Dreamline XG is characterised by a constant arc with a holding finish to the head. It provides the ultimate in comfort, stability and consistency for all bowlers from social to competitive and elite level. Available in 00H, 0H, 1H, 2H, 3H, 4H, and 5H.

## Speedball Wall Frames

**Jim Bradley 25cm speedball wall frame** M 230474 97.73 107.50

This Speedball wall frame board features a laminated finish that protects the ball and ensures an ultra smooth response. The wall frame is an integral part of the complete speedball set, whose importance is often overlooked. Inferior, thinner boards won't "rebound" immediately, but will move upwards fractionally when hit by the ball thus slowing the response time and detracting from the exercise. Complete with powder coated brackets, frames are available in short backed brackets for low ceilings and kit can also be waterproofed for external fitting. Ball not included.

**Jim Bradley 40cm Speedball Wall Frame** 230475 134.00 147.40

Same features as the 10" wallframe but with the advantage of accomodating either a 10" or 16" speedball. Ball not included.

**WOS Wall Mounted Platform Kit & Swivel** 230499 75.00 82.50

Complete with platform kit, superfast swivel. Does not include Speedball.

**WOS Wall Mounted Platform Kit** 230499K 63.59 69.95

60cm platform round board. 19mm thick laminated board comes complete with adjustable powder coated wall brackets and bolts for attaching to solid wall.

**Speedball Swivel D Shackle** O 230473 6.73 7.40

Replacement D Shackle for Speedball swivel.

**Jim Bradley Speedball Swivel** 230472 26.14 28.75

Original design, manufactured specifically to stand up to intense pressure for lengthy periods. Unlike most other swivels on the market this item provides a shorter arc to the ball when hit, thus ensuring a truer, straighter arc that facilitates high speed use and specifically compliments Jim Bradley speedballs.

**Heavy Duty Swivel** O1 230499H 18.18 20.00

Heavy duty speedball swivel.

#### Jim Bradley Floor to Ceiling Ball

A unique design that provides a larger hitting surface and manufactured from hand picked garment leather. These floor to ceiling balls differ quite markedly from most others on the market which tend to be round in shape and have a hard impact feel. The design features of these balls range from their unique shape through to the height adjustable straps and soft rubbers all based on promoting a softer, more responsive hit.

**Jim Bradley 25cm Floor to Ceiling Ball** 230496 136.36 150.00
