Rope track System

N

Rope track system is designed to allow a ladder, trapeze, or rings to be added to the track. These are ordered separately. A heavy duty track is attached to a structural member by clamp. Roller hangers are connected to the ropes. The hanger allows the rope to move freely in all directions and provides long lasting bearing surfaces. The hauling rope on pulleys moves the ropes to the working position where it is fixed by a cleat mounted on the wall. Correct spacing between ropes is maintained by a 5mm D chain shackled to hangers. A wall bracket and chain holds the ropes to the wall when stored.

Trangia Cooking Kits

Trangia Stormcooker 25-1

A 572121

Ultralight aluminium is 50 % stronger than ordinary aluminium. Consequently, less material is required to manufacture the stove systems. As a result, they are lighter. Our aluminium stove systems spread heat quickly and evenly. This means that food does not, for example, burn and stick to the centre of the frying pan. Ultralight aluminium windsheild (upper and lower). 2 x saucepans, 1.75 and 1.5 litre. 1 x frypan, 22 cm. Weight 845g.

Trangia Stormcooker 25-2

B 572123

Same ultralight aluminium construction as the 25-1 and with the addition of a 900 ml kettle. Ultralight aluminium windsheild (upper and lower). 2 x saucepans, 1.75 and 1.5 litre. 1 x frypan, 22 cm. 1 x kettle 900 ml. Weight 1025 g.

Strength Training

Periodization Training For Sports

Sports conditioning has advanced tremendously since the era when a no pain, no gain philosophy guided the training regimens of athletes. Dr. Tudor Bompá pioneered most of these breakthroughs, proving long ago that its not only how much and how hard an athlete works but also when and what work is done that determines the athletes conditioning level. In Periodization Training for Sports, Bompá demonstrates how to use periodized workouts in order to peak at optimal times by manipulating six different training phases: anatomical adaptation, hypertrophy, maximum strength, conversion to power, maintenance, and transition. Coaches and athletes in 32 sports have at their fingertips a proven program that is sure to produce the best results.

Custom Printing

With modern digital printing once impossible to provide designs are now within the reach of all our clients. If you want something a little different to suit your business or organisation your design can be printed directly onto the fabric.

Many of our customers are now adding their names, logo's and other relevant designs to

give them the edge at events. This is also great for identification of your SwiftShelter canopy. You can even get a complete custom canopy colour or simply place your designs onto our standard colours.

What We Will Need

- Your design requirements
- Good quality images for any logos or other design features. Files need to be in .ai format.

For more information please visit www.swiftshelter.com.au where you can download a PDF template to help with your design.
